

# Reading Rocks Reviews KS1

Welcome to Reading Rocks Reviews, a 5 lesson English project in which children write, video and share their own book reviews with the help of some well known authors including Michael Rosen.

You'll not only be engaging your pupils with digital literacy but also immersing them in the text of your chosen book, exploring storylines, comprehension and opinions. The project covers curriculum objectives from ICT and literacy, to not only engage your children but make excellent progress.

The final output is a recorded book review video which will be shared with the school in [assembly](#). To see what your final video might look like, watch [these example videos](#).

These reviews are perfect to share online, in school with parents or other children, and a great way to include the author or publisher of the book so they can see it and may even respond! LitFilmFest will add shared reviews to the [online playlist](#), so do [email](#) or [tweet](#) us to let us know. We may even send your students a personal well done from the LitFilmFest team!
